Chief, General Services

Security Officer, CIA

Base Station Radio Equipment - Administration Building

1. In view of the additional responsibilities invested in me with respect to the administration of the overall Agency Emergency Plan, it is requested that a Motorola Single Channel Base Station Radio, Model F1C7RUM/1B be purchased and installed in the Emergency Plan Communication Headquarters, Room 2, Administration Building. It is estimated that the cost and installation of this equipment will amount to approximately \$600.00.

2. Since the Administration Building will serve as communications headquarters in the event of an emergency or disaster, this equipment is necessary in order that contact may be had with mobile communication units of the K&SO Security Patrol.
